## ANNUAL REPORT 2019

<b>Education and Counselling</b>	
January 2019 – December 2019	<p>Our YouTube channel grew from 50 000 subscribers to 90 000, becoming the most popular online educational platform for reproductive and sexual health and for women’s rights. At the same time, we created 9 new educational videos, out of which:</p> <ul style="list-style-type: none"> <li>- 2 in collaboration with The Commissioner for Human Rights (Council of Europe)</li> <li>- 2 in collaboration with Durex Romania;</li> <li>- 1 featuring anonymous stories about Police abuse and misconduct towards women victims of violence, as a response to the Caracal case. The latter video and the women’s stories were picked up by national media: PRO TV and Realitatea.</li> <li>- 1 video – an animation of the Pilot Study „ Analysis of the Economic Consequences of a Country Wide School Based Compulsory and Intracurricular Sexuality Education”</li> </ul>
April 2019 - December 2019	<p>In April 2019, we decided to provide professional help for our beneficiaries who have reached out to us for support. We teamed up with Save the Children Romania and implemented a free online counselling service on our social media accounts for those who need professional advice regarding sexual, reproductive and emotional health issues: this service helped over 1350 teenagers and young adults in 2019 (numbers comparable to those of a public family planning clinic).</p>
<b>Advocacy and Research</b>	
April 2019:	<p>Advocacy: SEX vs THE STORK organized the National Conference for Reproductive and Sexual Health Education, hosted by the Romanian Chamber of Deputies and supported by WHO Europe.</p>
April 2019:	<p>Research: At the National Conference for Reproductive and Sexual Health Education, we published the pilot study “Analysis of the Economic Consequences of a Country Wide School Based Compulsory and Intracurricular Sexuality Education”, Adriana Radu’s Public Health Master Thesis.</p> <p><b>We spend 33 Million Euro/year in medical costs related to new HIV/AIDS cases, new syphilis cases, abortion cases and unplanned pregnancies in 15-24 year olds, while a national program for sexuality education in all Romanian schools would only cost 1,8 million Euro/year.</b></p>
