### ANNUAL REPORT 2020

<b>Education and Counselling</b>	
January 2020 – December 2020	Our YouTube channel grew from 90 000 subscribers to 115 000. We created 20 new educational videos, out of which: <ul style="list-style-type: none"> <li>- 4 were developed in partnership with the Emergency Child Protection Center from Buzău in order to prevent human trafficking and sexual abuse;</li> <li>- 7 were created with the support of Cercul Donatorilor Bruxelles and explored various subjects related to contraception.</li> <li>- 9 were created in partnership with Decât o Revistă as a response to the onsetting pandemic.</li> </ul>
July 2020 – December 2020	We started our TikTok Channel, that reached 200 000 subscribers in just 6 months. We published around 60 TikTok videos that amassed 30 million views.
January 2020 - December 2020	We continued to provide professional help for our beneficiaries who have reached out to us for support, with the help of our partners from Save the Children Romania. Our free online counselling service for those who need professional advice regarding sexual, reproductive and emotional health issues has helped over 1800 teenagers and young adults this year (numbers comparable to those of a public family planning clinic).
<b>Research and Advocacy</b>	
September 2020	Research: We developed an essential national research on the current situation of Romanian family planning clinics. The results were grim: out of the 153 publicly funded family planning clinics, 36 have been closed in the past 6 years and only 2 of those still functioning continue to offer free of charge contraceptives, blatantly endangering the sexual and reproductive rights of young people and vulnerable people.
Since October 2020	Advocacy: We are assisting the development of the National Strategy for Reproductive Health 2021-2024 – our research on the economic impact of sex education and on the current circumstances of publicly funded family planning clinics has been included in the strategy.
Since March 2020	Advocacy: SEX vs THE STORK has successfully advocated, alongside FILIA and the “Mame pentru Mame” Association, for the healthcare rights of pregnant women in the pandemic: the right to breastfeed after birth and the right to effective access to abortion.
November 2020	Advocacy: Adriana Radu, the president of SEX vs THE STORK, was elected as a member in the Economic and Social Council (CES), a Romanian institution with a consultative role in the legislative process, that establishes and nourishes a social dialogue between the public sector, the private one and civil society. The votes granted to Adriana Radu represent a next step towards better advocacy for women’s rights and reproductive rights and health in Romania.
